

Help the woodlouse find his way home!

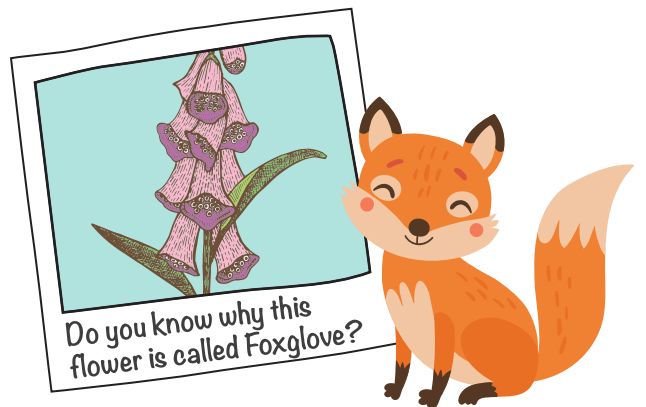

Woodlice are more closely related to crabs and shrimps than they are to insects!

Foxgloves were originally called 'folks-glove' because people thought they looked like gloves for the little folk, the fairies.

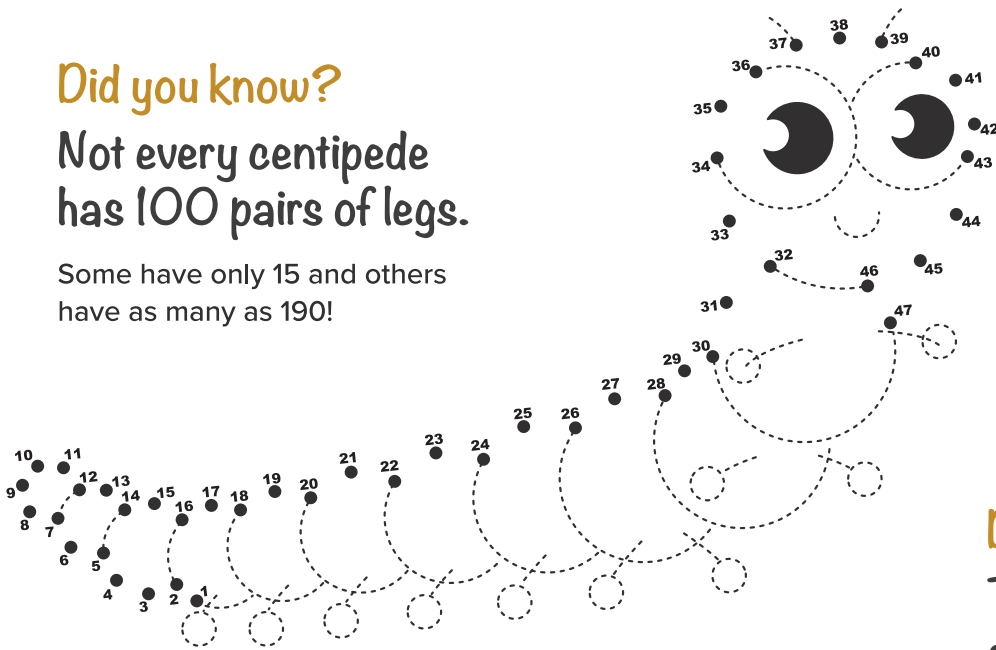

Did you know?

Not every centipede has 100 pairs of legs.

Some have only 15 and others have as many as 190!

Did you know?

The bloody-nosed beetle spits out a blood red liquid to defend itself!
